

## **CAREER OPPORTUNITY**

**JOB TITLE** : Senior Supervisor Instrumentation & Control

**REPORTS TO** : Manager Instrumentation & Control

---

### **Job Purpose:**

The Senior Supervisor Instrumentation & Control is responsible for the maintenance, troubleshooting, calibration, and repair of complex instrumentation and control systems within a refinery. This includes performing preventive and corrective maintenance on field instruments such as pressure, temperature, flow, and level transmitters, control and safety valves, analyzers, and radar level gauges, as well as diagnosing faults and troubleshooting issues to minimize downtime. The role also involves calibrating and fine-tuning instruments to ensure accurate operation, maintaining records of maintenance activities, calibrations, and system performance, and providing technical guidance and training to junior technicians. To maintain a safe work environment, the incumbent ensures compliance with safety regulations and identifies potential hazards. The incumbent is expected to use a PC for report generation and data analysis, as well as SAP for inventory management and maintenance planning.

**Education:** D.A.E. (Electronics / Instrumentation)

**Experience:** Minimum 6 Years in instrumentation & control maintenance

### **Technical Competencies:**

- Thorough understanding of instrumentation principles, including electrical, pneumatic, and electronic systems, with familiarity in control systems such as DCS, PLC, and SCADA.
- Strong analytical skills to diagnose and resolve complex instrumentation issues.
- Hands-on experience in field instrumentation, including precise calibration of control valves and safety valves.
- Ability to read and interpret instrument drawings such as P&IDs, control narratives, cable & conduit schedules, JB detail drawings, hookup drawings, and cause & effect diagrams.
- Knowledge of industry permit-to-work systems.
- Familiarity with instrumentation standards such as ISA, IEC, and API.

**Non-Technical Competencies:** Strong time management, communication, and teamwork skills.

Interested candidates may apply in confidence on [jobs@prl.com.pk](mailto:jobs@prl.com.pk) latest by **Wednesday, February 26, 2025**. Kindly mention the position i.e., **“Senior Supervisor Instrumentation & Control”** in the subject.

Only short-listed candidates will be contacted.
